EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with James McKeown on 9/11/06.

The application has been amended as follows:

1) In claim 10, on the last line of the claim, the word - - the - - has been inserted before the word "first".

2) In claim 19, on the last line of the claim, the word - - the - - has been inserted before the words "tightening" and "adjusting", respectively.

2. This application is in condition for allowance except for the presence of claims 2,3,5-9,11-18 directed to species non-elected without traverse. Accordingly, claims 2,3,5-9 and 11-18 have been cancelled.

3. The following is an examiner's statement of reasons for allowance:

The prior art when taken separately or combined fails to teach and/or show an aligning device for a vehicle headlight having an elastic ring clamped between holding parts by an adjusting screw and radially supported in a ring sleeve of the carrying part of the headlight as per claim 10. Re claim 19-22, the recitation of the adjusting element operatively arranged between a motor vehicle body and carrying part of a headlight which has an adjusting screw with tightening disks and L-shaped holding parts arranged between the tightening disks is not shown or taught in the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
